BETTEX

Industries Limited

BETTEX Industries Ltd., a vanguard division of BETTEX, is globally recog-nized for excellence in the design and fabrication of high-performance woven apparel. Strategically located in Gazipur, Bangladesh, we employ state-of-the-art textile technology to produce garments of exceptional quality. Possessing over a decade of specialized experience, we excel in developing bespoke solutions for outer-wear and technical workwear, rigorously adhering to international benchmarks for Quality, Cost, and Delivery (QCD).

Our Vision

To revolutionize woven apparel manufacturing through ethical ingenuity, environ-mental stewardship, and unparalleled distinction.

Our Mission

To empower global brands by furnishing agile, transparent, and ecologically respon-sible production capabilities.

Our Core Values

Quality, Integrity, Innovation,
Sustainability, Client-Centricity

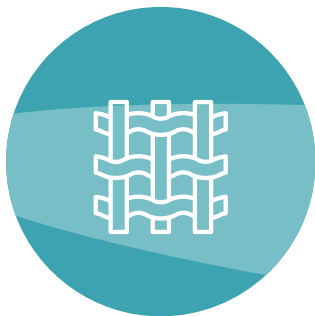

OVERVIEW

WORKFORCE	1,000+ skilled professionals
FACTORY AREA	90,901 ft²
MACHINERY	650 sophisticated machines
PRODUCTION CAPACITY	250,000+ pcs / month
PRODUCTION LINE	12
LEAD TIME	60 days – local fabric 90-120 days – imported fabric
GLOBAL CLIENTELE	30+ premium brands across 15+ countries
EXPORT MARKETS	Europe, USA, Canada, Australia, Japan, Korea, China
CERTIFICATION	SEDEX

Distinguished SERVICES

End-to-End Woven Solutions

FABRIC PROFICIENCY

Expertise in twill, poplin, chambray, faux woolen textile, substantial knit, and performance fabrics (including moisture-wicking and anti-microbial variants).

R&D PROTOTYPING

Our expert design team and CAD specialists can expedite sampling in 5-7 days.

FLEXIBLE MOQ

Production initiates at 3,000 units per design.

Threadify (B2B Platform)

Global sourcing with an extensive network of over 200 suppliers.

Real-time tracking with IoT-integrated ERP system for order monitoring.

Data-centric AI analytics to align production with global fashion trends.

Uncompromisable QUALITY

“Quality is not an act, It’s a habit.”

At the heart of our operations lies a commitment to Quality. Our in-house laboratories rigorously test every product ensuring industry-leading consistency and durability. Every step is transparently documented through blockchain traceability.

IN-HOUSE LABS

ISO-certified testing for colorfastness, tensile strength, and shrinkage.

AUTOMATED QC

Advanced optical inspection systems identify stitching imperfections and evaluate seam integrity.

AQL 1.5 COMPLIANCE

Rigorous inline and final inspections by certified controllers.

BLOCKCHAIN TRACEABILITY

Guaranteed transparency in sourcing of raw materials.

CLIENT MANDATED PROTOCOLS

Strict conformity to standards set by clients.

Leading Edge TECHNOLOGY

ERP System Integration

SEAMLESS OPERATION

Our ERP system integrates production planning, inventory management, quality control, and logistics into a unified platform.

REAL-TIME TRACKING

Dynamic dashboards provide live tracking of order progression, machine efficiency, and workforce productivity.

TRANSPARENCY

Clients receive automated updates at every production stage, from fabric sourcing to final packaging.

Automated Hanger System

EFFICIENCY BOOST

Sophisticated automated overhead garment conveyor systems optimize workflow, reducing manual handling by 70%.

EXPEDITED LEAD TIME

Minimizes bottlenecks, ensuring 15% faster turnaround for high-priority orders.

PRECISION SORTING

RFID-tagged garments undergo automated sorting, routing, and tracking throughout the cutting, sewing, and finishing phases.

Sustainability INITIATIVES

CARBON FOOTPRINT REDUCTION

Aiming for a 30% decrease in emissions by 2026.

WATER WASTAGE REDUCTION

Planning for a 25% reduction in water wastage by 2027.

RENEWABLE ENERGY ADOPTION

Targeting 20% solar energy utilization for operations by 2027.

A dark olive green quilted jacket hanging on a wooden hanger. The jacket features a high collar, a full-length front zipper, and two large vertical zippered pockets on the sides. The quilted pattern is horizontal across the body and vertical on the sleeves. The interior lining is a contrasting red color.

Our PEOPLE

EMPOWERED WORKFORCE

Comprising 65% female employees, bolstered by dedicated leadership initiatives.

WELLBEING PROGRAMS

Encompassing complimentary childcare facilities and mental health support services.

CONTINUOUS DEVELOPMENT

Over 500 hours allocated monthly to training in lean manufacturing principles, digital proficiencies, and safety protocols.

COMMUNITY ENGAGEMENT

Biannual staff appreciation events organized to enhance worker satisfaction.

Mutual Growth & PARTNERSHIP

Partner with BETTEX PREMIUM to leverage:

- 45-day rapid prototyping for fast-fashion collections.
- Competitive pricing with fabric sourcing support from Bettex Group's global network.
