# Remarkable SERVICES

## R & D

We provide R&D services to assist our customers in design and developing new products, as well as enhance existing ones. This include conducting market research and test new designs to refine new products.

“

*Committed to delivering exceptional customer service, quality craftsmanship and delivering seamless support for all your needs.*

## *Threadify (e-commerce)*

Recognizing the need of a strong online presence, we launched our ecommerce platform – Threadify. It's a “One Stop Fashion Solution” that bring local & foreign suppliers together and connect manufacturers with a world of fashion buyers. The platform offers a global selection of yarn, fabric and trims, with flexible order quantity and worldwide shipping.

# Uncompromisable QUALITY

Quality controls are continuously conducted internally which gives us full control of everything from materials to patterns and sewing. We follow an acceptable quality level (AQL) of level 2 1.5 (internal). Our trained inspectors oversee that we always live up to the standard we set out to deliver.

Our aim is to offer a secure production from start to finish with Quality Management System (QMS) by 2025. It's aligned with our purpose and strategic direction (ISO 9001:2015).

“

*We uphold rigorous quality control measures throughout the manufacturing processes to ensure that every product meets stringent criteria.*

## Quality Management System (QMS)

### Design & Build

Identify top defects through root cause analysis

### Deploy

Preventative action plan, training and evaluation of workers

### Control & Measure

Set section wise goals and KPI on operator & inspector level

### Review & Improve

Monthly progress tracking then repeat with new defects

# Leading-edge TECHNOLOGY

## ERP SYSTEM

We use state-of-the-art ERP system for streamlined production, quality control, inventory management and real-time order tracking, allowing buyers to monitor their order. By 2025, the system will be fully integrated across all operations.

## 3D MOCKUP

Elevate your apparel design with 3D mockup of garments that we offer through our ecommerce platform – [Threadify](#)

## 360-DEGREE VIRTUAL TOUR

Step inside our factory virtually, from anywhere in the world. We offer you an immersive experience of exploring every corner of our factory virtually in 360 degree. Start the tour by simply scanning the QR code.

# Fostering a vibrant WORKFORCE

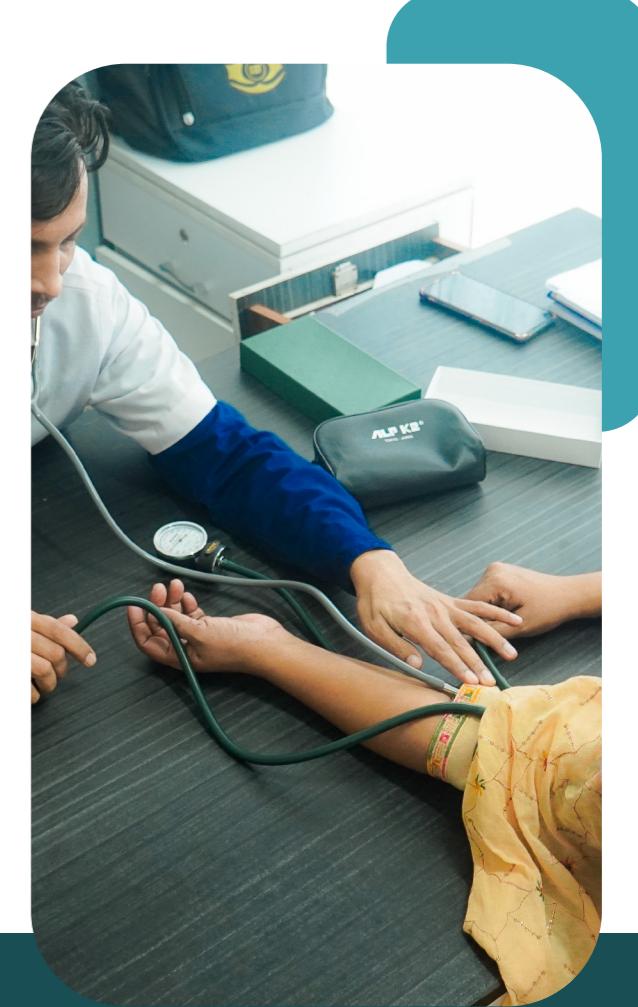

*OUR PEOPLE ARE OUR MOST VALUABLE ASSET*

Our goal is to create a working environment that promotes a fair, safe, inclusive and diverse workplace culture for each of our employees. As a responsible & ethical employer, BETTEX Industries Ltd. strives to maintain the highest standards of compliance with local labor legislations and international human right standards.

# Fostering a vibrant WORKFORCE

*Cont'd*

We believe in the strength of diversity and inclusivity, and we are proud to have a team that reflect those beliefs. We promote an environment in which everyone is treated with dignity and respect. On top of ensuring fair wage, we also provide our staff with additional benefits to support their mental and physical wellbeing.

## *Health & Safety*

Free medical camp, onsite medical support, and health insurance

## *Motivation & Incentive*

Production & attendance bonus, best employee award

## *Building a Sense of Synergy*

Annual sports day

# We care about ENVIRONMENT

Sustainability lies at the heart of our operations. We strive to ensure that economic growth is not accomplished at the cost of the world that we all share. With a focus on promoting sustainable fashion, we undertake several initiatives.

# We care about ENVIRONMENT

*Cont'd*

## Water Wastage Reduction

We prioritize responsible water management by reducing garments re-wash and using proper chemicals to ensure less water wastage. There's also a plan to install more eco-friendly washer and dryers that'll significantly reduce the water consumption.

## ETP

Our advanced effluent and sewage treatment plant ensures complete purification of wastewater before discharge, effectively removing harmful pollutants from our manufacturing processes.

## OUR FUTURE PLANS

### Solar Panel

We plan to invest in solar panel system to generate clean and renewable energy. These solar panels will not only help us reduce our dependence on conventional energy sources but also minimize our environmental impact by lowering greenhouse gas emissions.

### Rainwater Harvesting

Our state-of-the-art rainwater harvesting program is set to be implemented by the year 2025.

# Growing TOGETHER

**25 +**  
*Monthly Training Programmes*

**600 +**  
*Learning hour/month dedicated*

**1000 +**  
*Employees engaged each month*

We initiate extensive and comprehensive training sessions encompassing workers health and safety issues, sustainable practices, efficient resource utilization, emergency management and minimizing water & energy wastage throughout the manufacturing facility.

Regular training sessions are conducted for managers and employees aimed at enhancing trust in the process and ensuring fairness and transparency.
